First she pounded enough earth and water for one pot with a pestle such as they use in beating corn, till it formed a perfectly hemogeneous mass. She then put it either on a flat stone or on the bottom of another, and giving it a dab with her fist in the middle to form a hollow, worked it into a shape

The most concentration, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling.

After eighteen years' experience by the farmers of Maryland and Virginia in the use of "Excelsion" on their wheat crops, it is their opinion that an application of 100 pounds is equal to from 200 to 300 pounds of any other fer-tilizer of guano, and therefore fully 100 per ct. cheaper.
